

# Shiny War Fishing Point Return Report

A ranked fishing report covering Old Rod, Good Rod, Super Rod, Fishing samples, and each route water-lure encounter. Route Finder samples are weighted when available; the rest are adjusted by rarity so rare targets do not overstate a route.

MANUAL REVIEW

# Best Fishing Returns

These are the strongest fishing routes after weaker duplicate target routes are filtered out.

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                           |
